How it works...

-The fees for services are due at the time of your visit, unless alternate arrangements have been made in advance. You will be provided with the necessary receipt so you may bill your insurance company directly, or if possible I will bill your insurance carrier for you. There is a \$10 insurance billing fee per treatment. We collect the initial office fee regardless of insurance coverage. If insurance covers your visit, you will be reimbursed or have credit toward future copays. If you have any questions, please ask.

-Most conditions require an average of 6-12 treatments, although some will respond well within 4-6 visits or less. Others may require a longer series – this depends on the severity and the chronic nature of the chief complaint.

-Acupuncture is most effective when done frequently, as it has a cumulative effect. To help you get regular treatments, there is a discount when you prepay for a series of 10 treatments. Should you decide to cancel your treatment series, you will be reimbursed at the regular rate for those treatments not used. Treatment series cannot be combined with other discounts.

-I accept cash, personal checks, and credit cards. Please note that all published prices reflect a courtesy discount for cash patients.

-Your appointment time is reserved specifically for you. **Please call at least 24 hours ahead of time if need to reschedule your appointment.** There is a **\$35 missed appointment fee** if we do not receive a call within 24 hours. **No shows are charged the full appointment fee.**

-For insurance patients: I _____ (initial) authorize the release of any medical or other information necessary for insurance claim processing and I understand that my identifiable medical information will be used only as necessary for purposes of treatment, payment, and other healthcare operations.
